

## Hearing checks for children and young people

	<p>The NHS want all children and young people to be able to have a hearing check.</p>
	<p>This includes children and young people with a learning disability and/or who are autistic.</p>
	<p>We are looking at how children and young people who go to residential special schools or colleges could have their hearing checked.</p>
	<p>We are having a meeting so that lots of people can tell us how they think we could do hearing checks in residential special schools.</p>

The meeting is for:

- Children and young people with a learning disability and/or who is autistic

- Parents and carers

- School staff such as teachers and assistants

- People who work in healthcare

For more information about coming to this meeting you can email Niccola at this address:
